

NOISE-CANCELING BOOM MICROPHONE

Dual noise-canceling boom microphone built with DSP allow you to be heard clearly, even in a high noise environment.

Spec

Part number	ASC100
Speaker type	Bone conduction
Bluetooth® version	Bluetooth® 5.0
Charge time	60 minutes
Talk time	Up to 16 hours
Listening time	Up to 8 hours
Charging voltage	5V±5%
Frequency response	20Hz-20KHz
Microphone type	Dual Noise-canceling boom microphones
Water resistant	IP55
Operate range	10 m
Battery	Lithium polymer battery
Weight	33 g
Standby time	Up to 14 days
Battery capacity	170 mAh
Maximum RF output power	4 dBm
Warranty	2 years
Colors	Black/Slate Grey/Light Grey

OPENCOMM

BONE CONDUCTION STEREO BLUETOOTH HEADSET

BONE CONDUCTION TECHNOLOGY

BONE CONDUCTION TECHNOLOGY OpenComm bone conduction headset uses transducers to send mini sound vibrations to your inner ear through your cheekbones, leaving your ears open and bypassing your eardrum.

OPEN-EAR COMFORT

With nothing inside or over your ears, patented bone conduction technology allows for total awareness and comfort while you listen.

SITUATIONAL AWARENESS

Bone conduction technology allows for both high-quality sound and situational awareness to deliver a hearing experience like no other.

UP TO 16 HOURS OF TALK TIME UP TO 8 HOURS OF LISTENING TIME

Up to 16 hours of talk time or up to 8 hours of listening time on a single charge.

Founded in 2011 in Syracuse, New York, AfterShokz pioneered bone conduction technology as a way to bring consumers the best open-ear listening experience. After 13 years of innovation and 265 patents worldwide, AfterShokz has truly redefined what it means to listen and stay connected.

OPENCOMM, a wireless stereo bone conduction headset, is designed for transportation, industrial, or business settings. Our signature bone conduction technology leaves ears open to your surroundings and a DSP noise-canceling boom microphone allows your voice to come through clearly wherever you are, even in a loud environment.
